NEW! PRODUCT LINE

SWITCHCRAFT NH SERIES RJ45 CONNECTORS. Switchcraft's EH Series RJ45s are trusted all over the world for critical OEM devices and I/O panel applications. The NH series reduces the width of the connector from 26mm to 19mm, saving space and increasing the number of connectors that fit into a standard rack from 16 to 20. Inside are the same trusted RJ45 connectors in a variety of configurations, including easily field terminated IDC versions.

DURABLE DIECAST METAL HOUSING

The thick, solid metal housing was designed to stand up to the most demanding applications

EASY TO INTEGRATE INTO ANY PANEL

The flexible design can be utilized in a wide variety of readily-available standard panels or integrated into OEM products

SWITCHCRAFT® QUALITY

Switchcraft connectors have been trusted in critical applications all over the world for over 75 years
